Curso: GR1CC

Docente: Jonathan A. Zea

The screenshot shows the Cisco Networking Academy course page for 'Python Essentials 1'. The page is in Spanish and features a large blue banner with the Python logo. The course is described as 'Learn fundamental concepts of computer programming and start building coding skills with the Python programming language.' It is a 'Self-Paced Online' course, available in English (English), Spanish (Español), Magyar, Polski, Português, and Український. The course is free, takes 30 hours, is for beginners, and includes 30 labs. The user 'Santiago' is logged in.

The screenshot shows the course progress page for 'Fundamentos de Python 1'. The page is in Spanish and displays a list of sections on the left and a large video player on the right. The video player shows the title '4.7 Sección 7 - Excepciones' and a 'Deslizar para comenzar' (Slide to start) button. The progress bar indicates that the user has completed 75% of the course.
